CUSTOM TURF SOLUTIONS

PRODUCING CUSTOM TURF FOR OVER 25 YEARS

Controlled Products is the world's leading manufacturer of turf. Our influence extends from initiating research. Most of the innovation in the turf industry for over 25 years is due to our commitment. We incorporate the latest technology into each project and into our state-of-the-art facilities in Dalton, Georgia.

We are equipped to develop, market and package innovative, customized turf solutions. We are still the industry leaders in innovation and technology, so we can build any turf you need. We also build long-term relationships with our dealers, worldwide. Controlled Products is committed to advancing the turf industry.

PRE-MADE LANDSCAPE STYLES

All of our landscape products are designed to have a natural appearance and a soft finish. Our products are also put through numerous tests to ensure a top of the line product that is safe and durable. Designed to satisfy budget friendly and premium turf needs all while being completely manufactured in the USA.

PL919

- Tan thatch allows for a natural look and feel
- Polyethylene yarn system
- Plush thatch with a shorter height than PL921

PL921

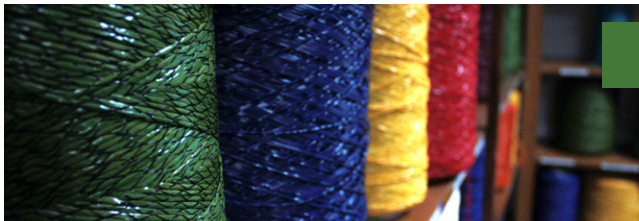

- Plush thatch requires minimal infill
- Multicolor blend allows for a more natural look
- Polyethylene yarn system allows for durability and beauty

PL925

- 2" pile height makes this grass first-rate
- This is a multicolor blend to display the image of natural grass
