CUSTOM TURF SOLUTIONS

PRODUCING CUSTOM TURF FOR OVER 25 YEARS

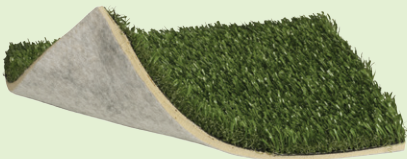

Controlled Products is the world's leading manufacturer of turf. Our influence extends from initiating research. Most of the innovation in the turf industry for over 25 years is due to our commitment. We incorporate the latest technology into each project and into our state-of-the-art facilities in Dalton, Georgia.

We are equipped to develop, market and package innovative, customized turf solutions. We are still the industry leaders in innovation and technology, so we can build any turf you need. We also build long-term relationships with our dealers, worldwide. Controlled Products is committed to advancing the turf industry.

PRE-MADE MULTIPURPOSE STYLES

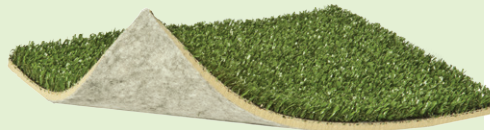

Many of our products are multipurpose, suitable for different applications or settings. Products are put through numerous testing procedures to ensure application compatibility. These products are on the shorter side with pile heights at 1 1/4" or below. As always our products are 100% USA made.
